33rd Annual Meeting

Society of Radiologists in Ultrasound

Imaging at the Speed of Sound: Recent Innovations in Ultrasound

October 20 - 22, 2023
Grand Hyatt Washington
Washington, DC
Welcome

As President and Program Committee Chair of the Society of Radiologists in Ultrasound, we would like to invite you to join us at the 33rd Annual Meeting and Postgraduate Course of the SRU, to be held October 20 - 22, 2023 at the Grand Hyatt Washington, Washington, DC. Our Program Committee has created an outstanding roster of world-renowned speakers with a wide variety of Ultrasound topics ranging from abdominal to vascular to obstetrics to pediatrics to practice management. Listen to the experts teach about technologies that belong in your daily practice including elastography, new US flow applications, and quantitative liver ultrasound. Our two-and-a-half-day program is jam-packed with opportunities for learning, the always entertaining ‘Sonopardy’ where the experts are put to the test, and the opening reception where attendees can form connections and grow friendships. The SRU is once again collaborating with the International Contrast Ultrasound Society for a half-day course on Ultrasound contrast. Don’t miss this unique opportunity to learn how to get your US contrast program started or to expand the use of contrast at your site.

The Grand Hyatt Washington is the perfect location to explore the museums, restaurants, history, and sites of Washington DC, and the fall is the perfect time to visit.

Please Join Us!

Mary C. Frates, MD, FSRU • President, SRU  |  Jason M. Wagner, MD, FSRU • Chair, SRU Program Committee

About This Activity
This activity is structured to address a wide range of topics common to most Ultrasound practices. It focuses on advanced techniques and applications used in general, GI/GU, OB/GYN, Vascular and Interventional procedures. The faculty emphasize updates in image optimization, contrast enhanced applications, thyroid assessment, GI/GU, OB/GYN and interventional procedures while sharing tips on how to acquire the most accurate measurements and quality assurance data. Extensive case review sessions round out the program.

Target Audience
This CME activity is designed to educate radiologists, fellows, residents and sonographers. It should also be of benefit to those physicians who order sonographic studies.

Educational Objectives
Attendees should, at the completion of this course, be able to:
• Review sonographic findings that can be easily misinterpreted or measured inaccurately and provide strategies for improved patient care.
• Discuss emergent sonographic findings of ultrasound abnormalities throughout the body.
• Discuss the most effective uses of contrast enhanced ultrasound in the performance of diagnostic and interventional procedures.
• Recognize the various uses of ultrasound.
• Enhance non-interpretive skills within your ultrasound practice and improve efficiency.

No special educational preparation is required for this CME activity.

Accreditation
Physicians: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Educational Symposia and the Society of Radiologists in Ultrasound. Educational Symposia is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Educational Symposia designates this live activity for a maximum of 17.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Sonographers: American Registry for Diagnostic Medical Sonography (ARDMS). The ARDMS accepts AMA PRA Category 1 Credits™.
